DROW

ACCESSORIZE YOUR ADVENTURE

The DROW is a one-piece multifunctional ski pole engineered for skiers who value precision and reliability. Its 7075 aluminum shaft balances low weight with long-lasting durability, while the extended EVA foam grip provides control and insulation during sidehills and transitions. Compatible with the Sling and Camera Clinch, it adds practical versatility while maintaining a clean, minimalist design.

THREADED CAP & SHEPHERD KNOB

Integrated threaded top cap allows quick interchange between accessories, adding versatility without compromising the pole's clean design. The shepherd-style knob shape provides a natural, secure hold for precise handling during transitions and movement.

SCULPTED MID-GRIP SUPPORT

An integrated circular grip zone for a natural pinch point for fingertip control. By improving grip leverage and distributing pressure more efficiently, it reduces effort when moving the pole. Inspired by climbing holds, it enables precise and controlled handling on steep or technical terrain.

EXTENDED GRIP

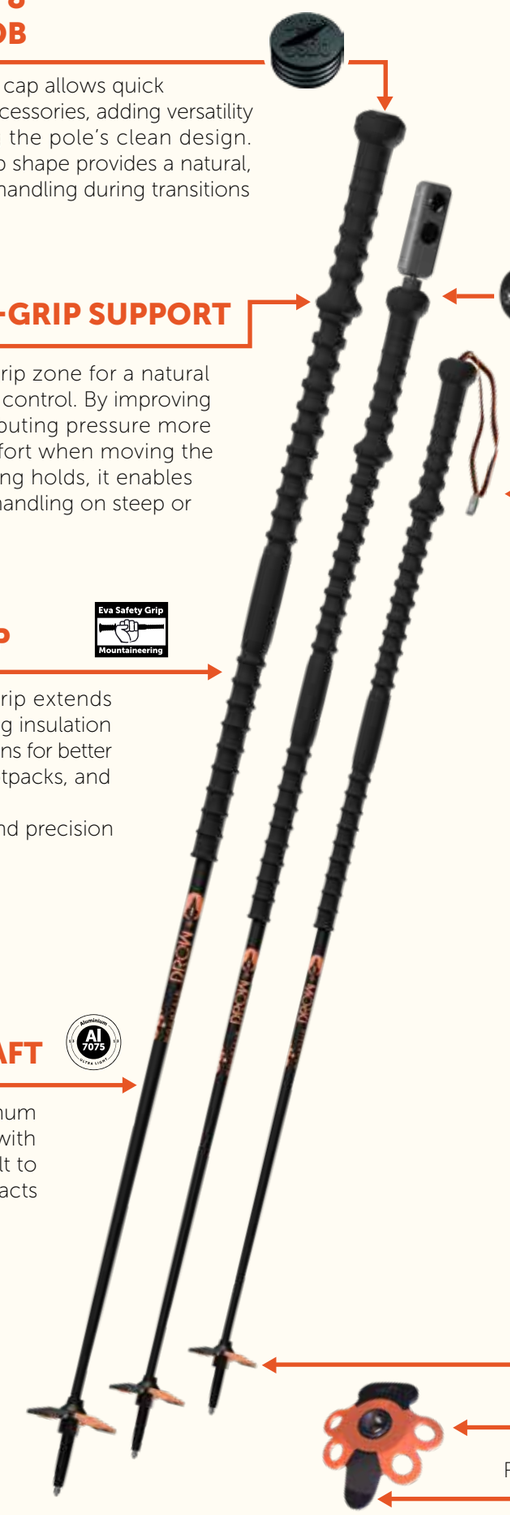

Eva Safety Grip Mountaineering

Full-length EVA foam grip extends down the shaft, providing insulation and multiple hand positions for better control on sidehills, bootpacks, and technical terrain.
Designed for comfort and precision in changing conditions.

ONE-PIECE ALUMINUM SHAFT

Al 7075

Aerospace-grade aluminum provides high strength with controlled flexibility, built to withstand repeated impacts in demanding terrain.

COLORWAYS

TERRA · RASTA · BLACK IS BEAUTIFUL · CAMELEON · FUNKY

+ CAMERA CLINCH

Compatible with the Camera Clinch, a screw-in 360° mount with M6 thread, made from durable polyamide.

+ SLING

Compatible with the Sling, a 60 cm Dyneema loop for securing gear or added support in technical terrain. It can be stored inside the grip when not in use.

HYBRID BASKET

Flexible inner ring reduces snow build-up and improves traction on firm snow

Rigid outer edge scrapes snow and features a notch for quick binding adjustments

CAMERA CLINCH

Supplied with the Camera Clinch, a screw-in 360° mount for direct attachment of action cameras. Enables stable filming on the move without interrupting flow.

+ GRAPNEL

Compatible with the Grapnel, allowing additional support in steep and technical terrain. Integrates directly into the handle for quick deployment when needed.

SLING

60 cm Dyneema sling mounts by replacing the threaded top cap, providing added support or gear attachment. Can be stored inside the grip when not in use.

LEVERLOCK

LeverLock system enables fast, secure, and tool-free length adjustment. Designed for smooth operation on the move, it allows quick adaptation to changing terrain and conditions.

REACH THE PEAK

Move confidently across changing terrain with the APEX. Built with a natural cork grip that adapts to your hand and manages moisture over long days, it prioritizes comfort from the first step to the last. The 7075 aluminum shaft delivers reliable strength that bends rather than breaks, while the 3-piece folding construction ensures compact packability. A fast-adjust flip-lock system and EVA grip extension provide versatility on steep ascents, making APEX a dependable choice for any hike.

CORK GRIP

CORK NATURAL GRIP

Natural cork grip molds to the hand over time, creating a personalized fit. It efficiently wicks moisture and remains comfortable in both hot and wet conditions, reducing fatigue on long days.

EVA LOWER GRIP

Eva Safety Grip Mountaineering

Extended EVA foam grip provides additional hand positions for quick repositioning on steep terrain. Improves control and efficiency without needing to adjust pole length.

7001 ALUMINUM SHAFT

Al 7001

7001 aluminum shaft delivers a balance of strength and weight. Designed to provide reliability in demanding and unpredictable terrain.

3-PIECE FOLDING CONSTRUCTION

Three-section folding design allows the pole to pack down compactly. Makes storage, transport, and attachment to a backpack easy and efficient.

COLORWAYS

Dark gunmetal/olive grey shaft with olive green accents .

WRIST SLING

Adjustable wrist strap provides added support and security. Reduces hand strain while maintaining control during technical sections.

FOLDING RETENTION STRAP

Integrated strap keeps all pole sections securely bundled when folded. Simplifies packing, storage, and transport on the go.

+ COUPLER CLIPS

C-clamp style clips secure both poles together for single-hand carrying. Improves convenience during scrambling, transitions, or rest stops.

LEVERLOCK

External lever lock enables fast, secure, and tool-free length adjustment. Easy to operate with one hand, even in changing conditions.

TREKKING BASKET

Trekking basket prevents the pole from sinking into soft ground such as mud or loose soil.
Maintains stability and efficiency across varied terrain.
